FURNISHED ROOMS.

TWENTY-FIVE SPECIMEN ROOMS IN VARIOUS STYLES ON SHOW.

THE following illustrations are representative of the decoration and treatment of some of the rooms we have designed and executed at Tottenham House. They serve as models of the various styles, which we can recommend to those who wish to furnish comfortably, economically, and in the feeling of any particular style or date—notably, Rooms after Chippendale, Adams, and Sheraton, the simple chaste arrangements of which cannot fail to please those who have given thought to matters of household arrangement; also Dining Rooms, Boudoirs, and Libraries, in the feeling of the English and Italian Renaissance, Louis XIV., Louis XV., Louis XVI. of France, &c.

Too much cannot be said in favour of the attention now being paid to the selection of household surroundings, and there can be no doubt that, during the last quarter of a century, rapid strides have been made in the true regeneration of art in English homes. This fact can be thoroughly appreciated by those who will favour us with an inspection of our Exhibition Rooms.

To meet the growing desire for information on the subject of dates, and the characteristics of the styles now prevalent, we append a key with dates.

CARPETS.

This Department, containing as it does all descriptions of Floor Coverings, which usually require renewing periodically, is in constant requisition by our many Customers, who on each succeeding visit to our Ware rooms, naturally expect to find new Fabrics and new Designs distinctly in advance of the goods they are replacing. By the aid of improved machinery, the scientific teaching of Chemistry and Dying, and the striking advance in the artistic skill that is now characterising the supply of designs, we feel that we are in a position to satisfy our Customers in this respect.

It is an established rule of the Firm to have the goods produced only by manufacturers of established repute. In many instances, to lessen the cost of production, we are enabled from our large connection to dispose all of one design that can be manufactured within twelve months, and thus have on show goods of the highest standard at very moderate prices.

Within recent years a wonderful piece of mechanism has been introduced for the manufacture of three distinct substances of Axminster Carpet, which has considerably reduced the cost of production, and at the same time admits of such delicate treatment in the selection of colours as to render the effect similar to an Aubusson Carpet of Louis XV. period.

 JAPANESE CARPETS AND RUGS. MIRZAPORE CARPETS.

The demand for Eastern Carpets increasing within the last few years to such a great extent has enabled us to hold in our ware rooms a selection which would have been deemed overwhelming a short time back. These goods are naturally of such great variety, both in shape, design, colouring, and quality, that it would be unfair to quote prices at per square yard or foot, each Carpet having its own special merit which constitutes its real value. Upon receipt of dimensions, either of room or Carpet required, a complete stock list will be forwarded.

We would respectfully notify to our customers that these goods, in common with all Pile Carpets and Rugs, either of English or foreign manufacture, give off during the first few months a certain quantity of fluff, which, however, in no way diminishes the quality of the materials, but is simply the loose wool which it is impossible to completely eradicate after the piles have been shorn. Should loose tufts appear, it is necessary to cut them and not pull them out; it is also advisable in all these goods, when sweeping, to let the broom or brush go in the direction of the pile.

TURKEY CARPETS (OF FIRST QUALITY),

In which only the best wool and cochineal, or occasionally madder, dyes are used, are specially manufactured for us at Ouchak.

These latter are particularly adapted to some of the modern soft-toned decorations, where the more fashioned bright-coloured Carpet would be glaring and inappropriate. Rugs of all sizes are kept to match, either for hearth, wall, or billiard table Surrounds. Special colourings, shapes, and sizes can be made and imported in about three months. Turkey Carpets, on account of their rich and harmonious colours and unusual thickness of texture, are largely used in the dining room, library, public and professional office, as also for stairs, and, where practicable, for halls and landings. It is now universally acknowledged that, considering their great durability, there is nothing more economical.

We are now having made at Ouchak Turkey Carpets in colourings of an entire novel character, specially suited for drawing-room use. All sizes are kept in stock, and arrangements made for shipments to leave Smyrna every month.

The prices of these Carpets are moderate, and they can be strongly recommended for wear.

SURROUNDS.

Since the Foreign and British Central Carpets have been so greatly appreciated, Surrounds have been almost universally adopted as an agreeable and serviceable substitute to stained or varnished boards, and are usually laid from 1 ft. 3 in. to 2 ft. wide, which, however, chiefly depends on the size of the room; they are sometimes extended under the Carpets.

The following are the varieties mostly used:—

WOODEN PARQUET, price from $-\text{10}\frac{1}{2}$ to $3\frac{3}{6}$ per square foot.

FLOORCLOTH (from $-\text{9}\frac{1}{2}$ to $3\frac{3}{3}$ per square yard) in striking imitation of real Parquet.

LINOLEUM CORK CARPETS AND CORTICINE (at $-\text{9}\frac{1}{2}$, 1- , $1\frac{1}{6}$, $2\text{ }5$, 2'10 , and 3- per square yard), with the same effect as the Floorcloth, or in plain art colours, sage, terra cotta, &c.

PLAIN DYED FELT, 4 ft. wide, in all shades (at $3\frac{3}{3}$ and $3\frac{3}{6}$ per yard).

KALMUCK AND TWILI (from 1'10 to 2'8 per yard in all fancy colourings, 1'8 to 1'11 per yard in plain grey). This is a thick reversible material, 36 in. wide, and is also made in narrow widths for stairs and passages.

CHINA AND JAPANESE MATTINGS

Are also very useful Surrounds. It is a material which of late years has considerably improved in quality, and now takes a very prominent position amongst the floor coverings in use. Through our Agents in China and Japan we have secured some of the best workmen to manufacture for us, and are able to insist that only new straw be used. The varieties of patterns are very numerous, and, through direct importation, we are able to offer to our customers a more considerable saving in price than hitherto we have been able to do. The widths kept in stock are 18 in., 27 in., 36 in., 45 in., and 54 in.—price from 10d. to 2'8 per yard; also in mats for washstands, dressing tables, &c., 36 in. by 27 in., 48 in. by 27 in., 48 in. by 36 in., 54 in. by 36 in., 72 in. by 54 in.

We frequently plan and fit the matting to cover all over the floors, forming as it does a very agreeable background for the arrangement of rugs, mats, &c.; it is also now much in use for dados, bath-rooms, boudoirs, vestibules, &c., and is then firmly fixed with a narrow and inexpensive wooden or bamboo moulding, with which also many quaint panels can be formed.

With the increased consumption of China Matting a demand has been created for novelties in style and colouring which we are making special efforts to supply. The other Surrounds for carpets are plain Brussels, Burmese, and Wilton, but, being all more costly, they are not so much sought after.

SEAMLESS AXMINSTER CARPETS.

First amongst these is the hand-made AXMINSTER, manufactured at Wilton, which can be produced in any shape or design at 17/- to 38/6 per square yard. These are similar to those, as originally manufactured, for which William III. granted a charter. Next to these rank the patent Axminster, woven in one piece, which can be produced in all colours and designs, whether English or Foreign, and varying in price from 10/9 to 32/6 per square yard. The variety in sample carpets in this make are always on show, and can be made to suit the dimensions of any room in a few weeks. There has also been recently introduced a less expensive seamless Axminster, and of which we keep an assortment in the following sizes:—

JAMES SHOOLBRED & CO.,

ENGLISH CARPETS

(IN BREADTHS).

Foremost amongst these is the

SUPER AXMINSTER, 27 in. wide, at 9/6 per yard, which for its long pile and great durability is unrivalled. When made up it has the appearance of a thick hand-made Axminster, at less than half the cost.

IMPERIAL PATENT AND VICTORIAN AXMINSTERS, 27 in. wide, at 3/11, 4/3, 5/9, 7/6, and 10/6 per yard, are made by an entirely new process, and being of close texture, present a very even and lustrous effect. Many of the examples are high-class exhibitions of floral decorative art, and are specially suited for use in drawing-rooms, boudoirs, &c.

ROYAL, ORIENTAL, ARISTO, AND ALUTO AXMINSTER, extra deep piles, 27 in. wide, at 5/3, 5/6, 5/11, 6/3, and 7/6 per yard. These fabrics being of a coarser and thicker manufacture than breadth Axminsters, already mentioned, are admirably adapted for dining room and library wear. Many conventional and Early English designs are kept in stock; and we have directed our special attention to the reproduction of Oriental Carpets in these materials, and a large number of designs have been produced. They are mostly selected from the best specimens of antique carpets, and have the rich and mellow colours so rarely found in modern Oriental productions. The characteristic regularity in colours and designs of Eastern Carpets has been carefully preserved, and in many cases they are quite equal to the originals.

SAXONY VELVET CARPET, 27 in. wide, at 7/6 per yard, is a serviceable hard-wearing Carpet.

WILTON CARPETS, 27 in. wide, at 3/11, 4/3, 4/11, 5/3, 6/3, and 6/6 per yard, have a soft and luxurious appearance. Not only are they suited for use in principal rooms, but owing to the wire-like wear they offer, they are much in demand for staircases and landings, and in common with the other pile fabrics, are made for the purpose in 22½ in., 27 in., and 36 in. wide. For hotels, clubs, railway and public offices, where there is great exposure, we specially recommend the Velvet Pile Carpeting, made usually with mottled or plain centres and effective border for stairs, passages, &c.; while the body Carpet, with corresponding beading, is used for vestibules and landings. A special quality, with mouse-coloured centre and coloured border, is supplied at:—

22½ in. wide, 4/2 per yard. 27 in. wide, 4/9 per yard. 36 in. wide, 6/9 per yard. 45 in. wide, 8/6 per yard. 54 in. wide, 10/0 per yard.

A similar Carpet in effect, but with a loose pile, is now being introduced for the same purpose, at the following low rate:—22½ in. wide, 2/6; 27 in. wide, 2/10.

The best Horse-hair Stair Carpets, well adapted for hard rough wear, and produced in similar colourings to the above, are supplied at:—

22½ in. wide	...	3/6 per yard.	27 in. wide	...	3/8 per yard.	36 in. wide	...	5/2 per yard.

BRUSSELS CARPETS.

FIVE-FRAME BRUSSELS. This is now a household word, but at the same time it does not carry the same signification as before, and cannot be taken as a standard for quality. In order to appreciate the value and lasting powers of a Brussels Carpet, it may not be out of place to roughly describe the principles of its manufacture, and so enable our Customers to realise its essential qualities. The Wool and Flax used in a best Brussels should of course be of the best quality, and can be recognised by the softness and flexibility of the former, and the length of fibre and strength of the latter. The Weaving Machines now in use are formed on the model of a loom invented for the manufacture of figured goods in 1802 by the illustrious but unfortunate Jacquard, the son of a poor Lyonnais weaver. The loops of wool forming the face of the carpet are caused by the threads of the warp being tightly stretched over a steel wire the width of the material, which is withdrawn at intervals, and the design is produced by these same threads previously passing through a series of cards, pierced with a number of holes representing the design, which cause the threads to deviate, and either pass over the steel wires and help to form the design, or underneath, and so form an elastic wool backing, by which Brussels Carpets are distinguished, and which assists the wear-resisting power of the surface.

Five-frame Brussels can be supplied at so low a rate as 2/9 per yard, well-made and best goods range from 3/6 per yard. An inspection will clearly prove the true economy of purchasing the latter, a good Tapestry Carpet generally giving greater satisfaction than those Brussels which are manufactured from wools of low qualities. We have had specially made for us during recent years large quantities of the **EXTRA QUALITY BRIDGNORTH** and **SPECIAL SIX-FRAME BRUSSELS**, and having tested their wear in several of the best Hotels and Clubs in London, we can confidently recommend them as being cheaper in the long run than any others. They are also made with borders, and for stairs in all widths.

BRUSSELS CARPETS, for Bedrooms, 2/9 to 3/3 per yard.
BEST QUALITY, new designs, 3/6 to 3/11 per yard.

EXTRA QUALITY BRIDGNORTH and **SPECIAL SIX-FRAME BRUSSELS**, 4/1 to 4/9 per yard.

Patterns of any of the above sent free on application.

PATENT BRUSSELS or **TAPESTRY**, 27 inches wide, at 1/9, 2/0, 2/2, and 2/6 per yard.

We hold a large and varied stock of the above, which, in many cases, offer exactly the same effect as Brussels, but, being printed in the warp instead of woven, the backing sooner becomes evident; however, for moderate requirements they can be safely recommended, and are supplied with borders.

Amongst other inexpensive Carpets are:—

KIDDER, 36 inches wide, at 1/11, 2/3, 2/8, and 2/10 per yard.

KIDDER, extra quality, at 3/0 and 3/3 per yard.

BEST THREE-PLY, at 4/0, 4/3, and 4/6 per yard. Very thick and durable.

ROMAN, 3/6 per yard.

KALMUCK, Art Shades, 1/11, 2/3, and 2/8 per yard.

BURMESE, 36 inches wide, at 4/0 per yard.

WOOL, DUTCH, Plain and Striped, at 2/0, 2/3, and 2/6 per yard.

Although this material is somewhat old-fashioned, it still retains its position of excellence for rough and hard wear, and is well adapted for servants' rooms and nurseries.

LINEN, DUTCH, at 8d., 10d., and 1/2 per yard.

FELT CARPETS, 52 inches wide, Printed, from 2/3 to 2/11 per yard.

FELT BATH and **TOILET MATS**, Plain and Printed, 50 inches by 50 inches, 4/3 each; 63 inches by 50 inches, 5/6 each.

PLAIN ALL-WOOLLEN FELTS, of which 25 shades are kept in stock, 3/3 and 3/6 per yard.

UNDERFELT, 52 inches wide, 1/0, 1/3, and 1/11 per yard. This material greatly improves the appearance and service of English Carpets. It is also supplied in various widths for stairs and landings.

BEST FELT PAPER, 54 inches wide, at 4½d. per yard.

WADDEN PAPER, 36 inches wide, at 6d. per yard.

THICK BROWN PAPER, 48 inches wide, 2d. per yard.

STAIR PADS, LININGS, &c.

BRASS AND WOOD STAIR RODS.

Experienced Planners sent to measure and lay down Carpets. Patterns and Estimates on application. Carpets taken up, beaten, and re-laid. All Carpets being made on the premises can be forwarded the same day as ordered.

RUGS AND MATS.

The great demand for all descriptions of Foreign Rugs, to such an extent as to completely exhaust some districts, has had a most beneficial influence on the manufacturers of this country, having stimulated them to produce patterns in continual diversity of designs, mostly taken from the examples laid down by their Eastern competitors. The varieties produced are the **DAGHESTAN, PERSIAN, MECCA, CASHMERE, TANJORE, SADDLEBAGS, and NIZAM RUGS.** They are made to fit in doorways, as well as in all sizes for the hearth, or for such purposes as the Oriental Rugs are used. The town-made Rug, which was formerly much in use, is rarely now sold.

Another branch in which we have successfully introduced the artistic element is that of Cocoa-nut Mats and Matting. The Mats are kept in stock in the following sizes:—

No. 3 ...	...	...	...	2 ft. 6 in. by 1 ft. 6 in.
" 4 ...	...	...	...	2 " 9 " 1 " 8 "
" 5 ...	...	...	...	3 " 0 " 1 " 10 "

" 9 ...	...	...	...	4 " 0 " 2 " 6 "

and in slips for doorways, 2 ft. 6 in., 2 ft. 9 in., and 3 ft. long. They can also be made in a few days to any shape or size by quoting the number or description. Cocoa Matting is kept in stock 18 in., 22½ in., 27 in., 36 in., 45 in., 54 in., and 72 in. wide, from 1¼ to 20 per square yard, plain and bordered; and on stone or brick flooring is not to be equalled in wear. A large stock is also kept of—

NAPIER MATTINGS.

MANILLA AND BELGIAN MATTINGS.

HORSE-HAIR MATTINGS.

CHINESE AND INDIAN MATTINGS.

JAPANESE MATTINGS.

ASSYRIAN MATTINGS.

A great variety of India-Rubber Mats, made in solid form, without joins, are also kept in stock, in the following sizes, costing from 1/4 to 2/6 per lb., and weighing about 1 lb. 6 oz. to 2 lbs. to the square foot:—

Stock sizes ...	...	...27 in. by 18 in.	30 in. by 18 in.	33 in. by 18 in.	36 in. by 24 in.
-----------------	-----	---------------------	------------------	------------------	------------------

Other shapes and sizes, for carriages, doorways, &c., can be made with names and monograms, &c. The cleansing properties of these Mats are not to be surpassed, and, being reversible, are most durable.

FUR AND SKIN HEARTH RUGS.

We have a very fine assortment of Foreign Furs, viz.:—

SILVER BEAR.

FOX.

BROWN BEAR.

AUSTRALIAN BEAR.

OPOSSUM.

TIGER.

WOLF.

LEOPARD.

Some of which are mounted on the best black goat, and some on bear of various shades. A speciality is made of a black Goat-skin Rug, which we have ourselves thoroughly cleaned, dressed, lined, and padded. A large stock is also kept of **SHEEP-SKIN RUGS and MATS**, suitable for hearths, carriages, toilet tables, doorways, &c., &c., and are now dyed by new machinery, which causes them to maintain their colourings for a much longer period. They can be cut and lined to any size required.

FOOTSTOOLS, HASSOCKS, &c.

CHURCH MATS, BOOK BOXES, &c.

CHURCH CARPETS AND SEATINGS.

PLAIN AND WOOLLEN BAIZES.

COVERINGS FOR CARPETS.

The material mostly sold for this purpose is what is known as Linen Crumb Cloth, which is used not only to protect Carpets, but is also frequently laid down for Dancing Carpets. The colours mostly in use are drab and slate, with a small rose or leaf design. They are also made in dark red, and in checks and coloured Stripes.

TOTTENHAM HOUSE, LONDON, W.

OILCLOTH, LINOLEUM, CORTICINE, AND CORK CARPETS.

Interior decoration having been carried to a point which necessitates, even in Floorcloths, harmonising or contrasting effects, such as will please the taste, we have had produced for us many artistic mosaics, inlaid tile, and other designs in Oilcloths, Linoleum, &c. We have also recently made considerable addition to our storerooms for this description of goods, enabling customers to see materials in the large body cloths and not from design books only. The best air-dried Oilcloths, or Waxcloths as they are sometimes termed, are made in large pieces, generally measuring about 33 yards long by 8 yards wide, having been seasoned from 12 to 18 months before they have left the painting room, the colours during that time have become well dried in the canvas backing, and may then be relied on to wear well. Keeping a considerable number of these huge pieces we are enabled to cut to plan, and generally lay them down in halls or rooms without any join. Turning from the best Oilcloths, which are manufactured on pure flax canvas, we have several lower qualities which are hardened by artificial processes, but, although a good effect is produced, they do not last nearly so well as those naturally dried, the virtue of the cloth being frequently absorbed by the great heat of the oven in which it is dried.

LINOLEUM AND CORTICINE

Are now so much improved in make that they have almost entirely superseded the Kamptulicon formerly used, and numerous specialities are on show in extra durable inlaid quality.

JAMES SHOOLBRED & CO.,

FRENCH AND ENGLISH CRETONNES.

We wish to draw attention to the double-width Cretonnes, now so much in vogue, both for the care devoted to their production and for the excellency of the designs, by some of the best French artists, and coloured to suit the requirements of the present style of decoration. Being printed by hand the colours are quite fast, and the necessity of joining these goods is obviated by their being made in double-width, which is ordinarily sufficient for one window.

French Printed Cretonnes	32 in. wide, $1\frac{1}{2}$ to $2\frac{1}{3}$	Double-width French Block Printed Cretonnes ...	54 in. wide, $3\frac{1}{6}$ to $5\frac{1}{3}$
French Block Printed Cretonnes	32 " " $1\frac{1}{4}$ " $4\frac{1}{9}$		

We have introduced the Printed Velveteens in the large Italian and Florentine designs, so well adapted to this class of goods, and are continually showing new styles in the ordinary width Cretonnes, most of which are printed especially for us.

Printed Velveteens	32 in. wide, $2\frac{1}{11}$ to $5\frac{1}{3}$	English Printed Reversible Washing Cretonne, 32 in. wide, $0\frac{8}{12}$ to $1\frac{1}{12}$

FIGURED AND DADO CURTAINS.

We have always a large assortment of these, and wish to call attention to the new designs in Chenille, reproduced from the best ancient Rugs, retaining their soft and harmonious colours. They are much used with Wilton or Axminster Carpets, for Dining, Smoking, or Billiard Rooms, and these, together with the Tapestry Curtains, are much in vogue on account of their economy, and ease with which they can be hung without being lined or trimmed with fringe or cord.

LACE CURTAINS.

The above Department will be found to contain a very varied stock of transparent effects in every fashionable light fabric suitable for Curtains and Drapings. We have endeavoured to place before our Customers as complete an inventory as is possible, and hope the following enumerations will assist those who are desirous of finding those goods which best combine economy with general good wear and artistic merit.

DINING ROOMS AND LIBRARIES.

For the above we suggest the Real Lace Curtains in Canvas, Tulle, and Renaissance Lace, being hand made, and consequently the better adapted for cleaning.

DRAWING ROOMS.

Premising a Drawing Room be furnished in the Renaissance style, there is nothing more suitable than handsome Swiss Embroidered Net Curtains in the same character of design; we also suggest delicate shades of Madras Muslins trimmed with Fringe or Lace, or Curtains of the same texture with Borders. But, while offering these suggestions, we endeavour to make these goods subservient to the general decorations, which we most particularly study

BOUDOIRS AND MORNING ROOMS.

Very graceful effect may be obtained by draping the Windows with our new Frilled Schiffli Net Curtains, and also the Window Sashes with Vitrage or Sash Curtains to match; Art-printed Muslins are also used, and make pretty Curtains at a very moderate cost.

BEDROOMS.

Nottingham or Scotch Lace Curtains are generally considered more suitable for the above than other makes on account of their lightness, and we can confidently recommend our new Brussels effects in these makes. Madras Muslin or printed Frilled Curtains are very effective Bedroom drapings, and are much sought after by reason of their artistic colouring

HALL PORTIERES, LANDING, AND STAIRCASES.

We are always prepared with a large assortment of soft Light Crossover and Oriental Striped and Figured Curtains, particularly well adapted in these positions. In many cases materials by the yard are also kept to match.

BILLIARD AND SMOKING ROOMS.

Nothing can be more effective than our Phoolkare Draperies in rich Blue and Terra Cotta colourings, combining good effect at a small cost. Crete and Madras Curtains in Oriental colourings are also very suitable for the above.

Sample Curtains of all kinds forwarded immediately on application to customers who are unable to favour us with a personal visit

JAMES SHOOLBRED & COMPANY.

UPHOLSTERED FURNITURE.

THROUGHOUT the whole range of domestic furnishing there is no branch where such implicit reliance has to be placed upon the reputation and conscientious workmanship of a firm as in the matter of Upholstery. As the costliness of the outside coverings is not the slightest criterion as to the workmanship of the frames or the quality of the horsehair, webbing, and springs (the essential part of durable and comfortable upholstered work), it is evident that without thoroughly overhauling and unripping an article such as an easy chair, a sofa, or a divan, it is impossible to detect whether it is fraudulent or genuine. We would, therefore, warn intending purchasers against the gaudy and meretricious imitations at present on the market. As, in the majority of cases, coconut fibre or flock is substituted for horsehair, and the remainder of the component parts are on a similar scale, it is the height of false economy to invest in these articles, the lifetime of which is at the most but a year or two.

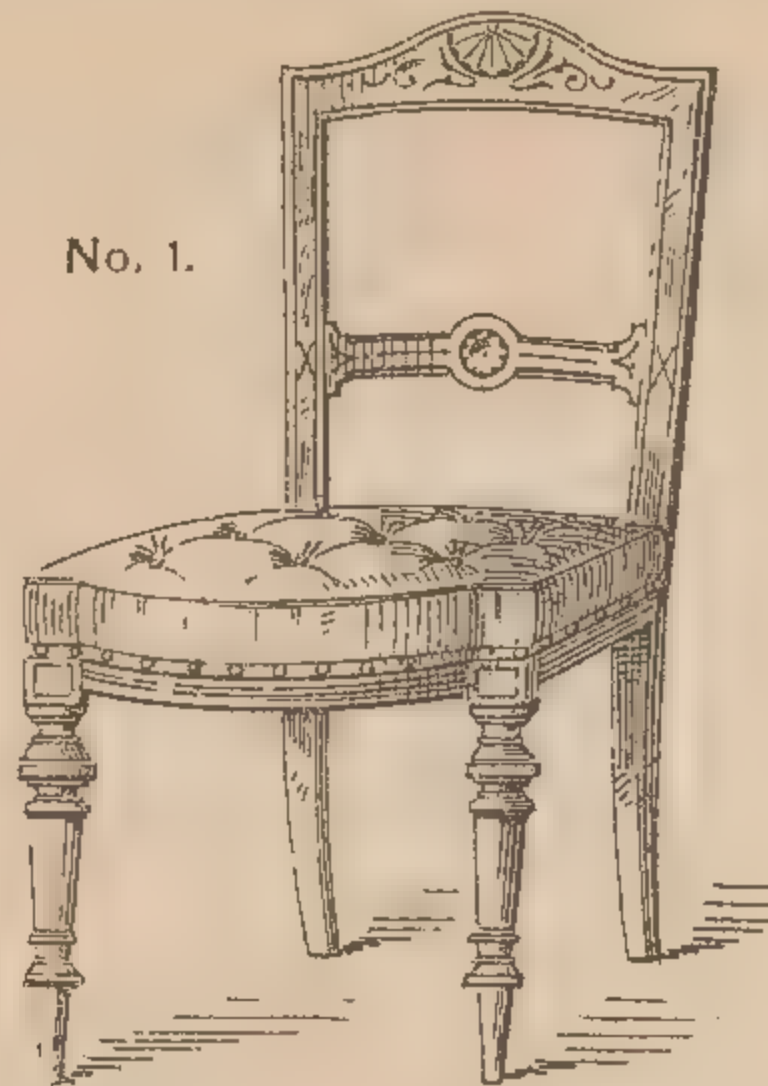

We have a reputation of many years for the production of high-class Upholstery, and the extensive scale on which our business is conducted enables us to offer the best goods, at the lowest possible price consistent with good workmanship and materials.

We invite inspection of our extensive show-rooms, as we are confident that the wide range of designs and colourings cannot fail to please intending purchasers.

We would also draw attention to the special facilities we have for restoring, re-upholstering, and repairing all descriptions of furniture, cheaply, promptly, and efficiently. Our extensive service of collection and delivery (see page 8 of catalogue) enables us to do this with the minimum of inconvenience to the customer. We have also a system of fumigating upholstered furniture, curtains, &c., affected with moth, without the necessity of removing or unpicking the materials.

WICKER CHAIRS.

(FANTAISIE.)

.....

THE Chairs illustrated on the other side are mounted on a framing of wicker or basket work, which naturally tends to impart a certain amount of elasticity not obtainable in a wooden frame, the seats, back, and arms are rendered still more comfortable by the aid of cushions and pads lightly upholstered and draped in various original designs, and by a judicious blending of colours and textures some very novel effects are gained. We are thus enabled to produce the most economical and comfortable seat obtainable either for bed or reception rooms. Any of the Chairs can be finished in tapestry or other materials to suit customers' taste, or the room for which they are intended.

CABINET FURNITURE.

THE constant changes of Fashion have again induced us to make some considerable alterations and additions to our stock in this department. In Bedroom Furniture, the present prevailing taste favours equally woodwork of Ash stained an artistic green, and any of the soft woods—White-wood, Pine, Deal, &c.—white enamelled. Either of these two treatments produce a very tasteful and artistic Bedchamber.

In Drawing Room Furniture, the Anglo-French styles divide honours with modified Chippendale and Sheraton. We invite inspection of our newly-appointed Showrooms, where these styles are well represented. We have recently stocked several very fine patterns for the Dining Room in Mahogany, Walnut, and Pollard Oak. Sideboards, Dinner Wagons, and Carving Tables in the latter of these woods look extremely handsome and substantial.

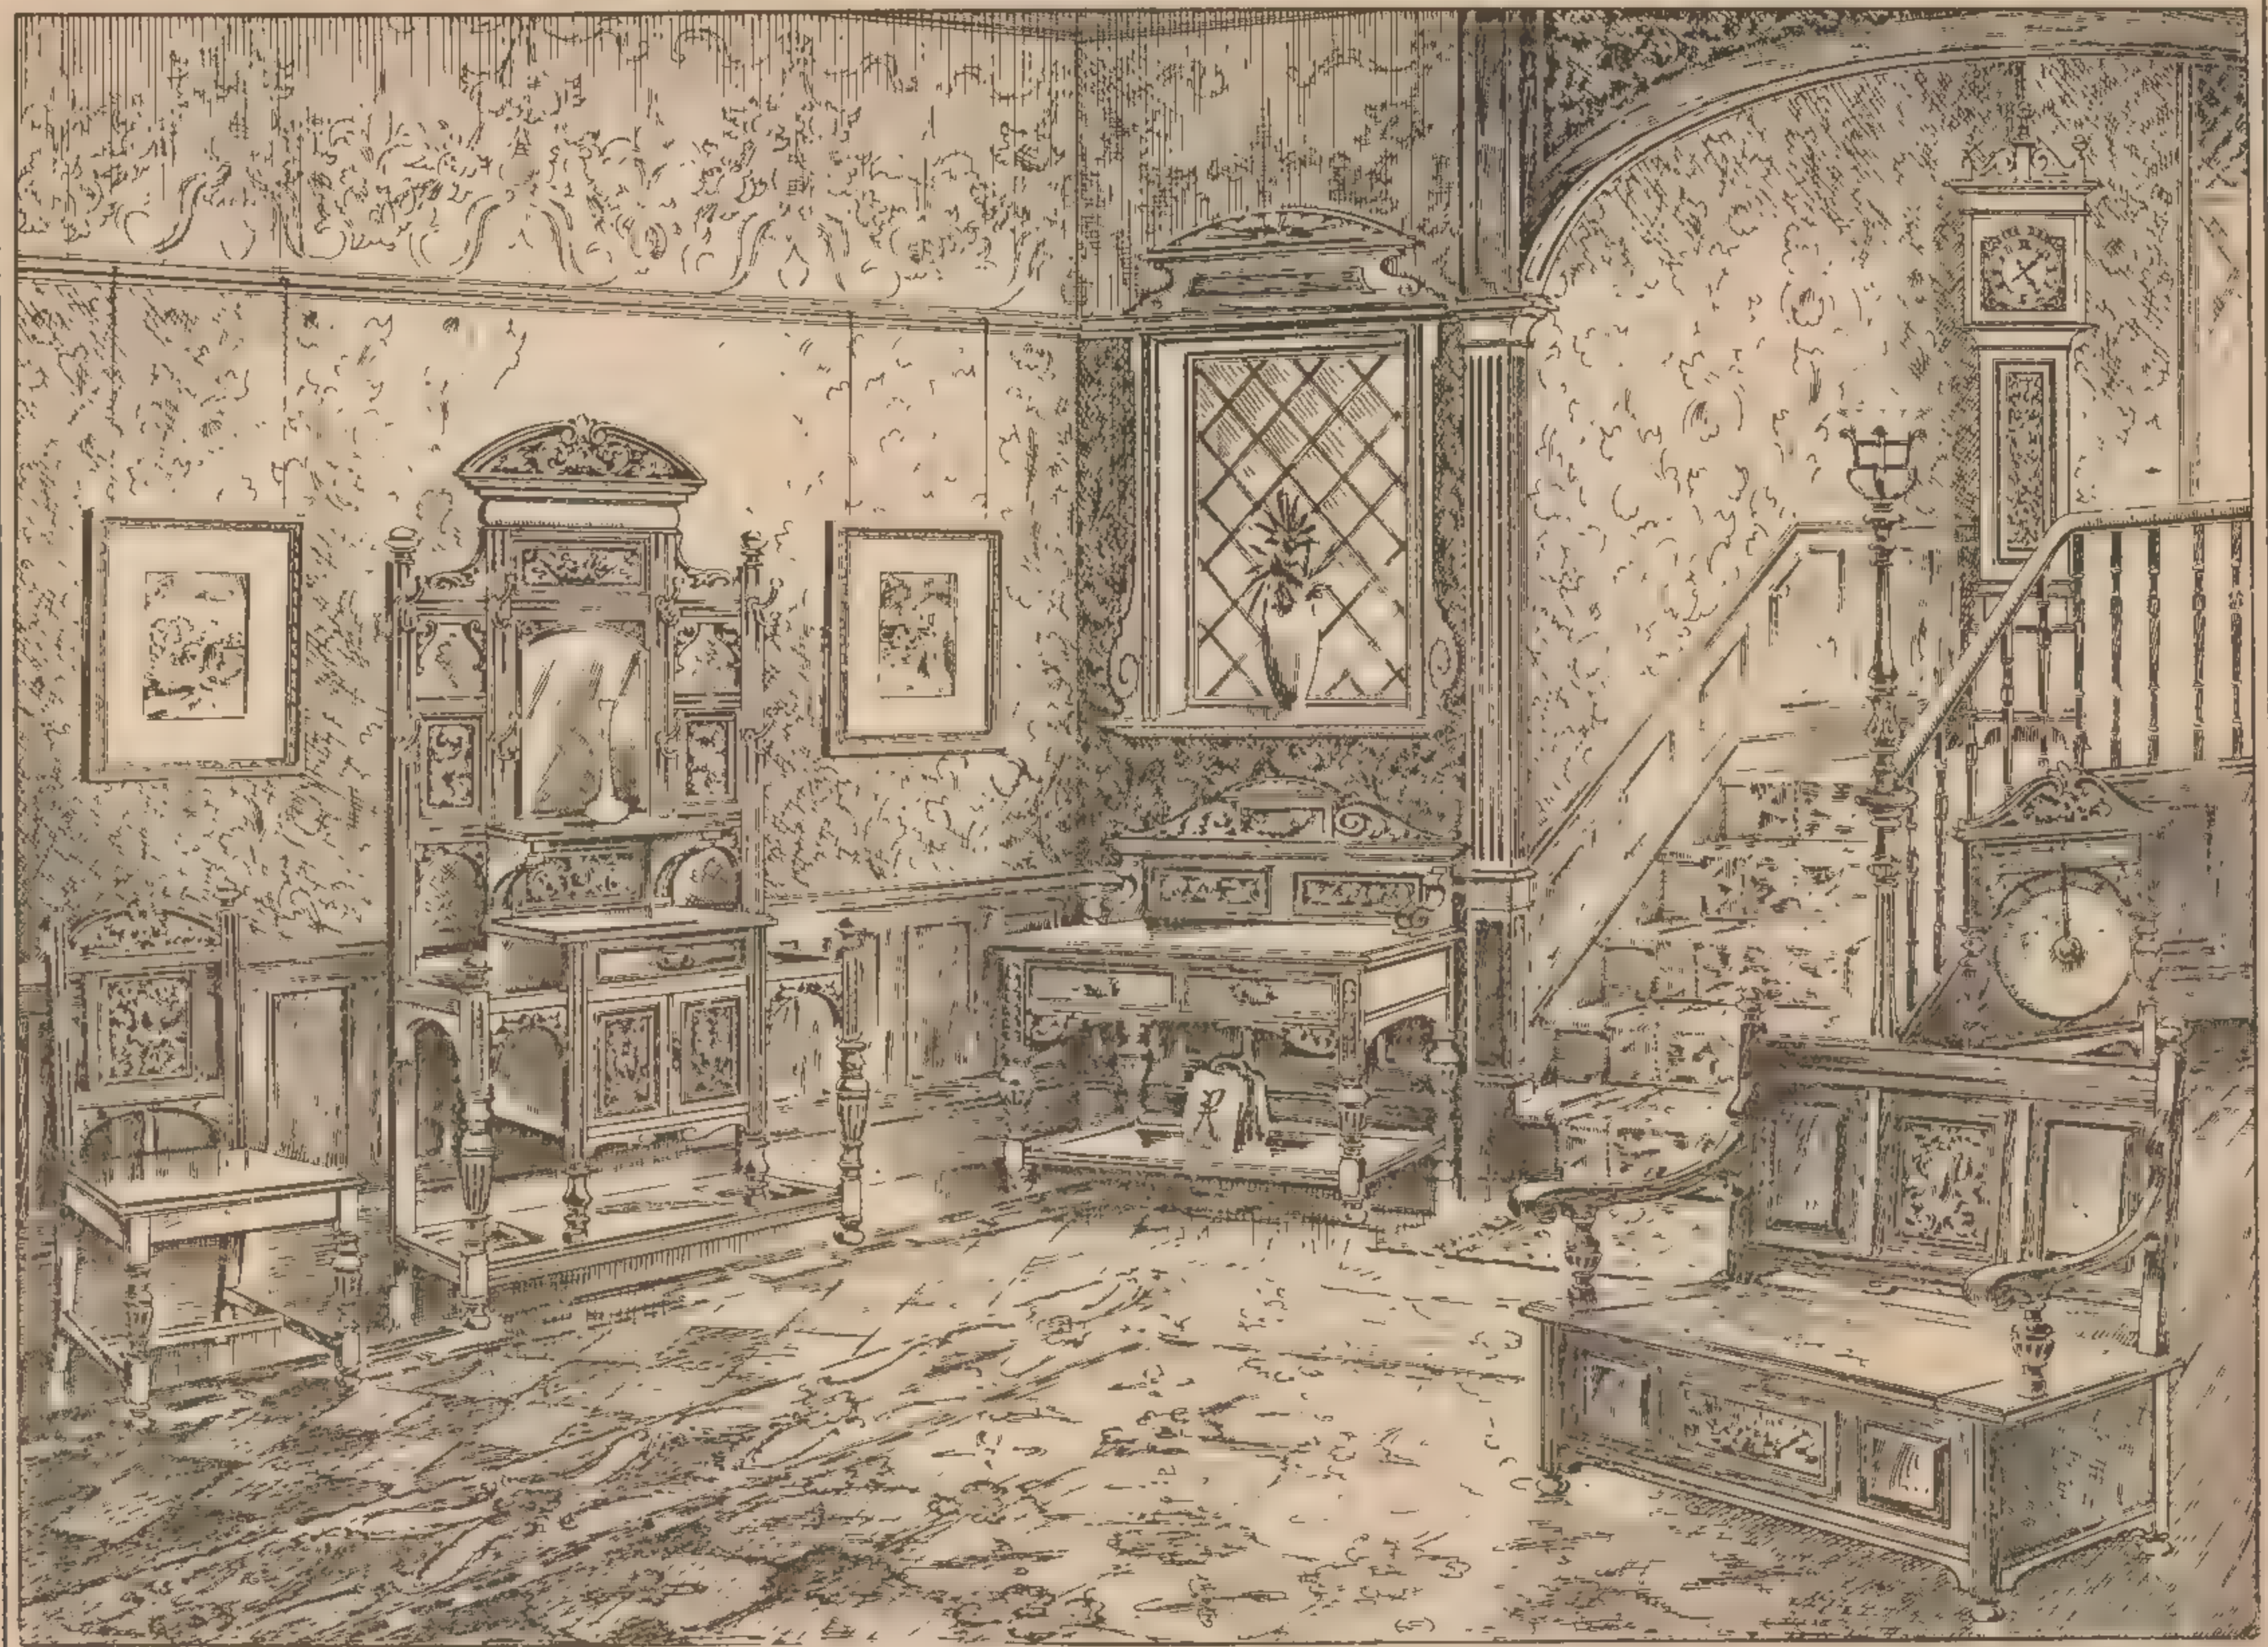

Among the departments recently enlarged are our Cabinet Factories, where we have added to and improved our plant of wood-working machinery. We are thereby enabled to increase our output and decrease the cost of production.

We have also acquired larger and more commodious premises for stacking and drying timber. Having a reputation of many years to maintain for the excellence and durability of our Cabinet work, we are always careful to use only sound and thoroughly-seasoned wood. This, from the purchasers' point of view, is an advantage not to be lightly overlooked. Green or wet wood is comparatively worthless. Three years at least, and in many cases five, are required to thoroughly season and mature it before it can be used for the manufacture of reliable Cabinet work.

It is, therefore, easy to understand how woodwork made with unseasoned timber (where the storage rental, the cost of stacking and subsequent attention, and the loss by warping and cracking are evaded) can be produced so cheaply. But the lifetime of this class of goods is very short. It is hardly necessary to point out, though the importance of the fact needs no apology for its emphasis, that, in Cabinet work especially, the lowest priced articles are far from being the cheapest.

JAS. SHOOLBRED & CO.'S PATENT SYSTEM OF FIXING PARQUET FLOORS.

WE have recently patented a system of laying Parquet Flooring, which can be adapted to any Parquet design. This system of fixing Parquet floors admits of their being transferred from house to house, in case of removal, without in any way injuring the designs, and the Parquet can be relaid at very small cost.

Our Patent Removable Parquet is made $\frac{1}{8}$ -in. thick, and is generally considered the most practical method of fixing the market has produced. The slight additional cost of 3d. per square foot is the charge for applying the patent fixing.

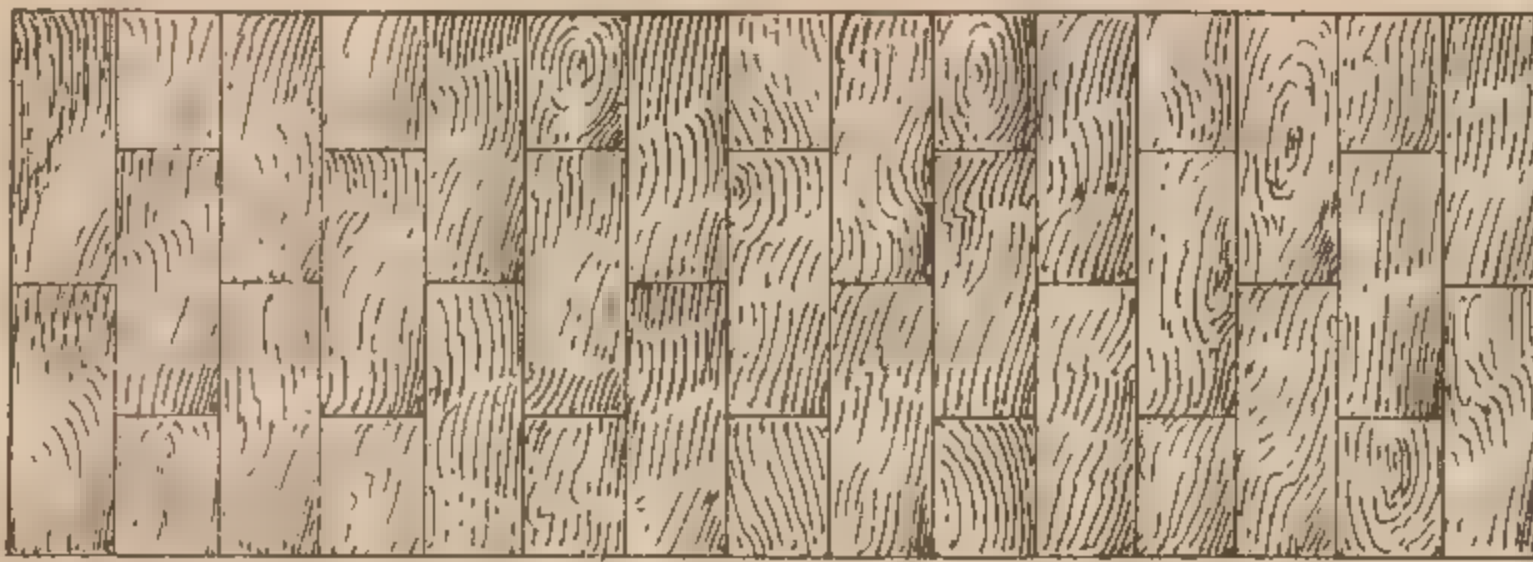

The special advantages of this patent are that it practically ensures freedom from injury to the Parquet Floor through any shrinkage of the sub floor, which is so frequently the cause of Parquet Flooring laid under the old method with pins and glue being so unsatisfactory in its wear. Our Patent System entirely does away with this defect, and has still the further advantage of enabling Parquet to be laid on any ordinary floor without special preparation, as is usual under the old style of laying.

This Patent Fixing is specially adapted for the Export Trade, as the system of fixing is so simple that any intelligent carpenter can readily lay down the Parquet by following the instructions for fixing sent with each order.

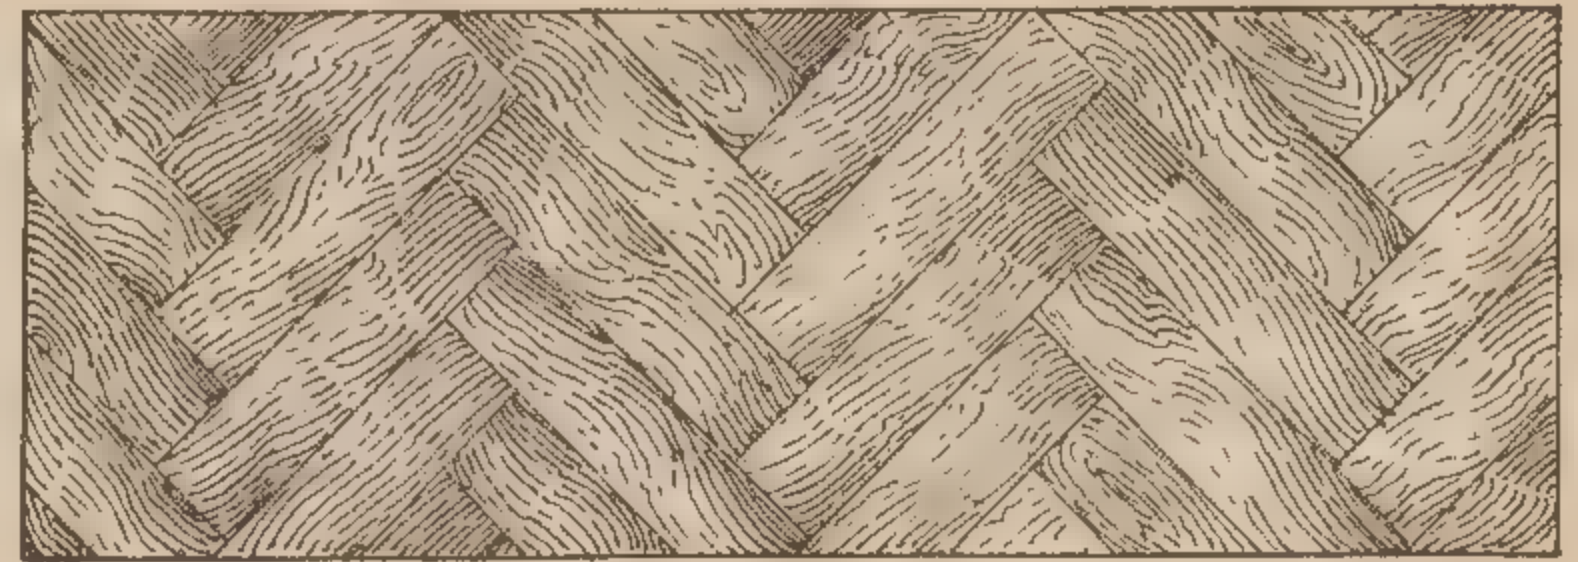

We shall be pleased to submit estimates and designs on application.

JAMES SHOOLBRED & CO., TOTTENHAM HOUSE, LONDON, W.

Bedding, Down Quilts, &c.

We would respectfully invite inspection by the Public of our Large and varied assortment of

BEDDING, DOWN QUILTS, &c.,

Exhibited in the spacious Galleries at TOTTENHAM HOUSE, where every description can be seen, and Prices being marked in PLAIN FIGURES, Customers can make their selections with the greatest facility.

Sample Bedsteads and Bedding are shown in great variety, suitable for any class of DWELLING-HOUSE; also Special Patterns for HOTELS, SCHOOLS, HOSPITALS, and INSTITUTIONS of every description.

All Bedding being manufactured on our own Premises, and under the superintendence of a responsible Manager, can be guaranteed to be thoroughly well made, special care being taken that all materials used are properly cleaned and purified before being manufactured.

We would call special attention to the METALLIC MATTRESS, the "EXCELSIOR" (No. 16 on the List), which having been sold for some years, and found to give the greatest satisfaction both as regards comfort, cleanliness, and durability, can be recommended.

We undertake to clean, purify, and re-make every description of Bedding, this is done in the very best possible manner, the greatest care being taken with the process of cleaning and purifying.

BEDSTEADS REPAIRED, RE-LACQUERED, and RE-JAPANNED.

The DESIGNS of Bedsteads published are the newest and best now manufactured, but we are continually adding new Designs to our Show Rooms.

We have quoted the Prices of the Lengths and Widths kept in stock, but other sizes can be made at short notice if necessary.

Steel Spring and Chain Mattress, on Polished Pitch-Pine Frame, with Improved Metallic Ends for Fixing the Chain Mesh.
 Made any size to fit Wood, Iron, or Brass Bedsteads.

THE MATTRESS is made on a solid Pitch-Pine Frame, French polished, to fit any size bedstead (iron or wood), and requires no adjusting. It is extremely simple, and does not get out of order. All the materials used are specially manufactured, and of the best quality. The method of construction creates the most uniform elasticity, and provides for the separate and independent action of each part and section of the Bed, allowing of complete adaptation to the form of the body, and affording a position of comfort and ease which induces sound refreshing sleep, thereby preventing the weariness and discomfort incidental to great pressure on prominent parts of the body, which so often produces bed sores. **The principle of arrangement permits the free movement of one sleeper without inconvenience to the other, admits of complete isolation of each, and effectually prevents depression in the centre.**

Only a thin hair mattress being necessary, feather beds, cumbrous straw and flock palliasses are dispensed with. Cost of bedding is much reduced, and bed making becomes far less laborious. Sweetness and purity of conditions so essential to health result from the change. For **Infirmaries, Hospitals, Asylums, Schools** (applied to Iron Beds), Sanitary Advantages are obvious and undeniable, and admit of the observance of the most stringent precautions against infection.

PATENT FOLDING COT BEDSTEAD

Designed expressly for Children from 6 months to 6 years of age.

THE Folding Cot Bedstead is constructed of Hardwood, fitted with Bamboo or Ornamental Panels of Cane Work—fulfilling every sanitary condition required in a cot, combined with extreme lightness, strength, and pleasing appearance.

When not in use, it shuts into a small compass, for packing or storage, in one compact article, and has no loose laths or sides. It is nearly automatic in its action, and so simple that it is fixed and unfixed within half a minute, and so light that a child can carry it.

It is always ready for use, and cannot possibly get out of order.

Being so light and portable, it is not only admirably adapted for ordinary use, but for Hotels and Lodging Houses, Hospitals, Institutions; and for taking to the sea-side, it will be found indispensable.

Patterns and Estimates for trimming Cots upon application.

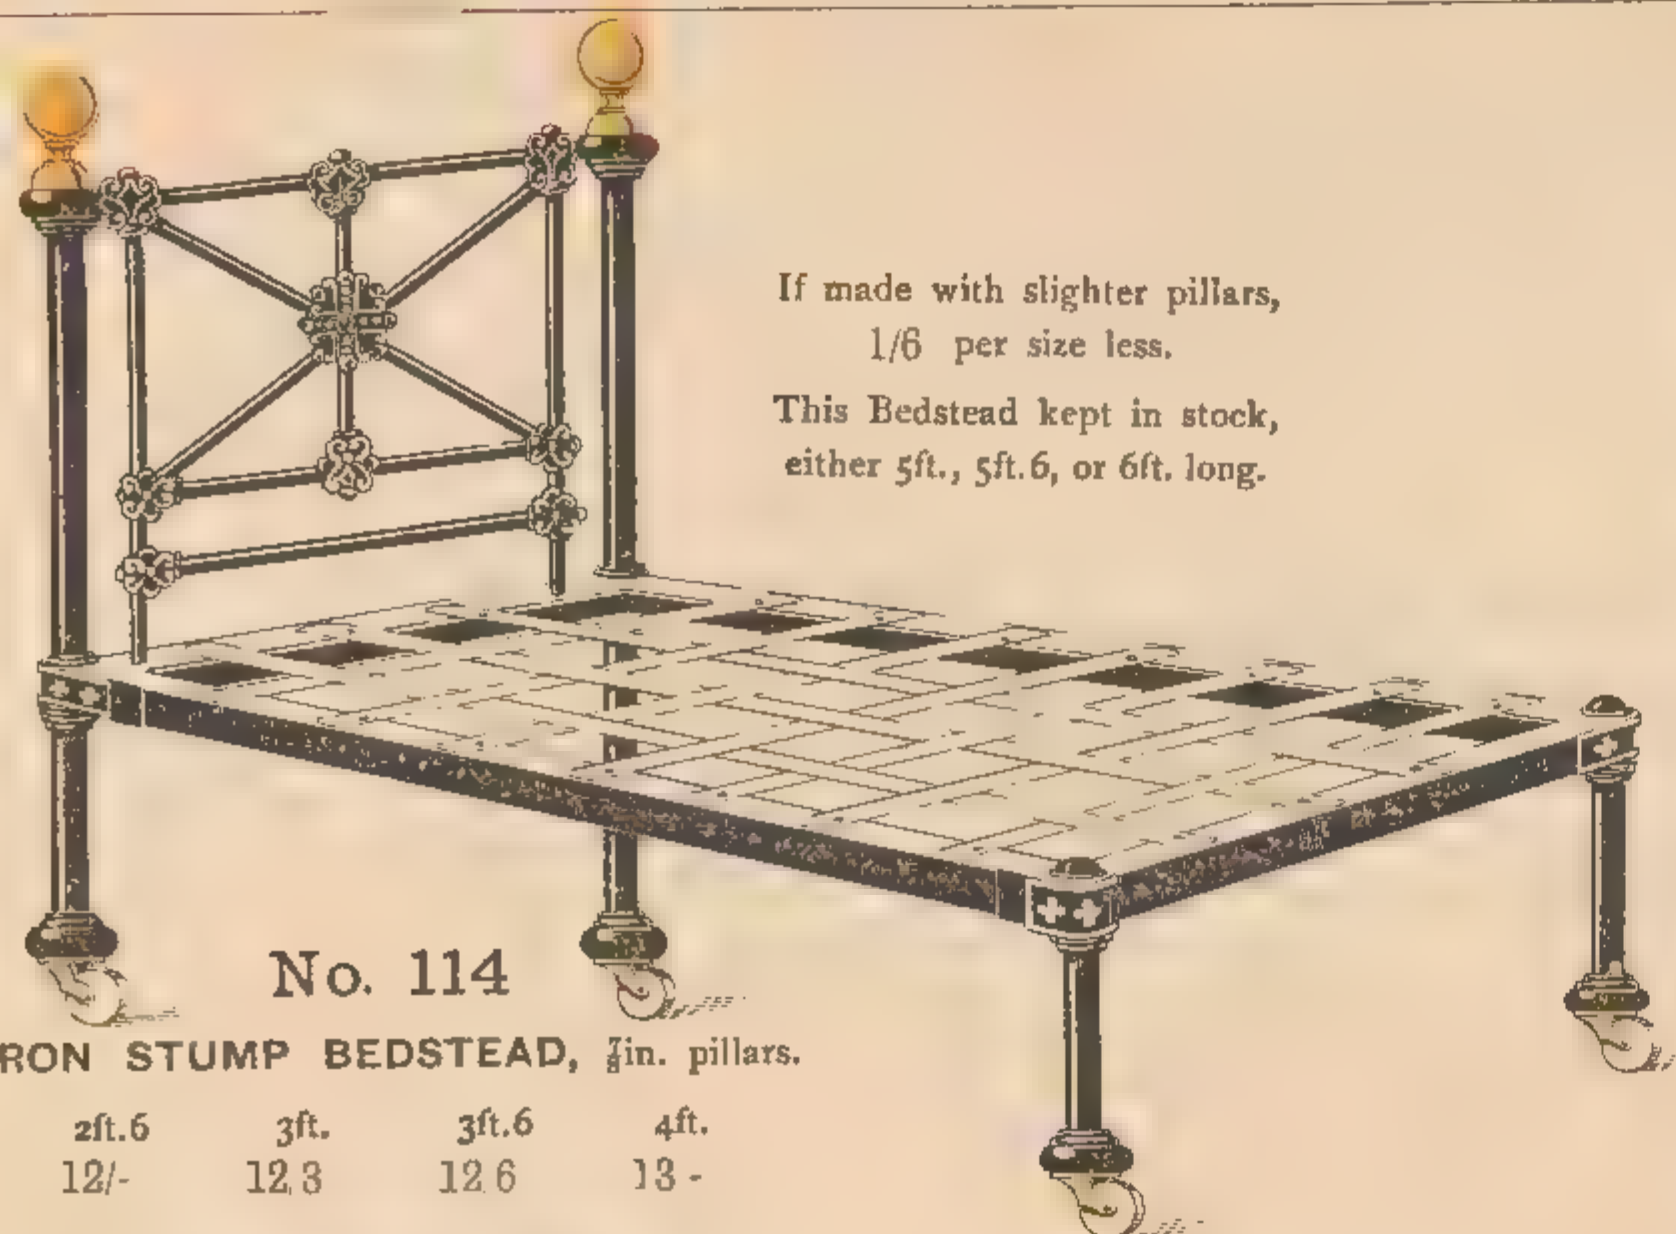

The Netting is made in White, Pink, Sky Blue, and Crimson.

When Ordering, please state Number, Size, Tester, and Colour of Netting.

THESE Folding Cots are made by connecting two oblong frames with a strong fancy cord netting, and are supported by a vertical strut, one end of which is fixed to the upper frame, and the other to the cross bar that connects the standards, thus rendering them perfectly firm when open. The bottom is made of very fine sail cloth strained like a drum, and only requires a thin mattress.

They are made in various sizes, suitable for children of any age. Size for infants, 2ft. 9in. long; and for children from one to three years of age, 3ft. 3in. long. The No. 3 is also made "extra strong," for children from three to six years of age, 4ft. long.

ART DEPARTMENT.

Under this heading is included all kinds of articles of an Artistic and Decorative character

PICTURES, CLOCKS, BRONZES, MARBLE STATUARY, ARTISTIC BRASS AND COPPER, INDIAN, CHINESE, AND JAPANESE GOODS, SCREENS, AND ARTISTS' MATERIALS.

The variety of articles under the designation of English Brass and Copper are very numerous, and, as by the use of a protective lacquer, which obviates cleaning, these goods are in great favour.

MUSIC AND PAPER STANDS DRAPED IN ART COLOURED SILKS. BRASS BOWLS, VASES, INKSTANDS, CANDLESTICKS, PHOTO FRAMES, &c., &c.

THE MELODIOUS CAMPANAL GONGS (exact tone of Westminster Chimes), to stand or hang in the Hall.

QUAINT AND ARTISTIC BRONZE ARTICLES OF THE VIENNA, STUTTGART, BERLIN MANUFACTURE.

FRENCH BRONZE VASES AND FIGURES.

These goods are so constantly changing in character and design that it is impossible to give more than a general description, and, as these are very suitable for presents for all occasions, an inspection of the stock is respectfully solicited.

- - - PICTURES. - - -

A Gallery is now devoted to the Exhibition of Paintings in Oil and Water Colours.

The newest Engravings and Etchings kept in stock, or procured at a reduction of 25 per cent. off published prices. Odd lots can often be offered at a much lower rate.

NEW PATENT
FOLDING IRON TENT,

WITHOUT CENTRE POLE.

No. 306.

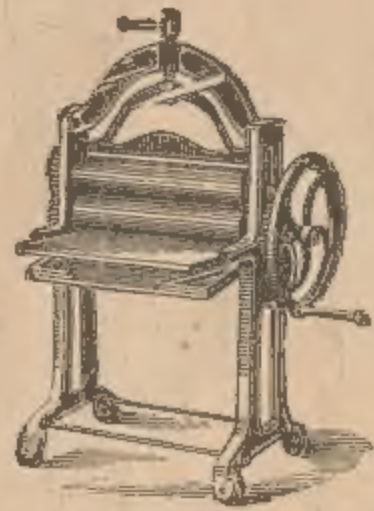

This Tent will be found superior to all others on account of its portability and great ease of erection. It can easily be fixed by any person in a few minutes. When fixed it is very firm and rigid; when folded it occupies only a very small space. The framework is of iron throughout; the sides fold up IN ONE PIECE and in its own height, not being elongated by the process; the top which is self-supporting and does away with the need of a centre pole, folds closely like an umbrella. No GUY ROPES are required, four iron stakes are supplied for fastening to ground during very rough weather and in very exposed positions.
